

Citra Blitz cleaner / degreaser

PRODUCT OVERVIEW

Woolube Citra Blitz is a powerful, fast acting natural degreaser ideal for removal of glues, fats, grease, bitumen, oils, waxes, and carbon deposits.

Woolube Citra Blitz provides superior cleaning for stainless steel, aluminium and is the preferred product for removal of **Woolube Lanolin** products.

Woolube Citra Blitz is water soluble, can be diluted to suit different cleaning applications and is an environmentally safe alternative to solvent cleaners.

FEATURES AND BENEFITS

- Non Hazardous.
- Low Toxicity and odour, suitable for indoor applications.
- Non streaking, suitable for alloys and stainless steel.
- Derived from natural citrus ingredients.
- pH neutral with low acidity.
- Water soluble, suitable for different dilutions and cleaning applications.
- Food safe, suitable for incidental contact with food in process manufacture.
- A blend of organic solvents and surfactants to enable emulsification with water.

PREPARATION

- Ensure the product is well mixed before using (shake or stir).
- Test dilution rates before application to surface.
- Remove all sources of ignitions, voltage, and flame before use.

COMMON USES

- Cleaning and degreasing of heavy machinery and plant.
- Breaking down of hydrocarbons/bitumen, shipping waxes, adhesives, & carbon build up.
- Industrial cleaning surfaces and for parts cleaning washers.
- Workshop and floor cleaner in preparation for painting and concrete sealing.
- Formulated to remove Woolube lanolin based products.
- Cleans air conditioning filament filters and recyclable filters.

- Cleaning and degreasing of alloys and stainless steel.
- Removes permanent markers, inks and fresh graffiti.
- De-carbonizing electrical motors and generators.

APPLICATION GUIDE

- **GENERAL CLEANING** - Lightly spray on soiled areas, wipe with a damp cloth. Suitable for kitchen benches, floors, grease traps, range hoods, drains, shower screens and toilets. For General Purpose Use, reduction dilution (1: 4 parts of water) or, as required.
- **ADHESIVE REMOVAL** - Spray Citra Blitz on the affected area, allow to stand for 3-5 minutes. Coated stickers may require the top surface of the sticker roughed up to allow penetration of Citra Blitz. Rub until adhesive is removed. No reduction dilution required.
- **MACHINERY & INDUSTRIAL DEGREASING** - For any solid crusted build up, rough the surface up with a wire brush to allow Citra Blitz to penetrate. Allow to stand for 5-10 minutes, use a high-pressure cleaner to easily remove the build-up. For Machinery and Automotive Degreasing, reduction dilution (1:4 parts of water)
- **BITUMEN REMOVAL** - Spray Citra Blitz on affected area, within a couple of minutes of application use a stiff bristled broom to work in Citra Blitz follow with a high-pressure cleaner. No reduction dilution required.
- **ELECTRIC REWINDS** - For de-carbonising electric windings, spray, leave for 10 minutes and high pressure clean off. For de-carbonising Electrical Rewinds – Citra Blitz reduction dilution (1:10 parts water)
- **THREAD DOPE & ANTI SEIZE REMOVAL** - Spray Citra Blitz neat onto threaded area with build-up, use a soft brush to work Citra-Prep into the threads, wipe off with a dry cloth. No reduction dilution required.
